

Sheldon Stuart

About Sheldon

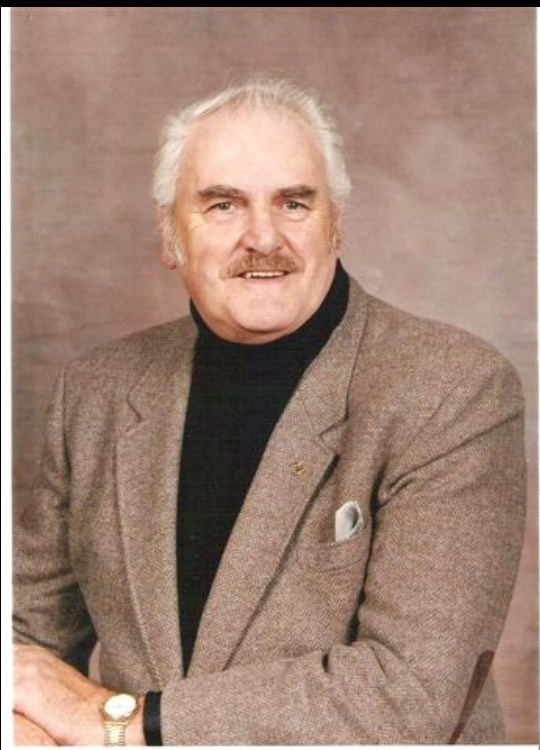

Lockeport native Sheldon Stuart is a painter who specializes in acrylics. Most of his paintings feature fishing schooners and a variety of birds as he worked as an engineer on fishing vessels, but are not limited to those as he paints whatever inspires him. Sheldon also uses photographs as inspiration.

Sheldon has always been interested in drawing, but before his retirement he did not have time to pursue it. In retirement, he is able to follow his passion and has joined a painters club with Eugene Scott, a local artist who helped Sheldon break into painting.

The highlight of Sheldon's painting career is having his mobiles sold at The Whirligig in Shelburne. However, having people like and acknowledge his artwork has always been enough compensation for Sheldon.
